

GW6210

Sensor Signal Conditioning SoC for Particulate Matter Measurement

Description

The GW6210 simplifies particulate matter detection by integrating an MCU and an analog front end, reducing the component count.

An automatic power control unit efficiently manages external sensing components. The integrated analog front end includes a Transimpedance Amplifier (TIA), two Programmable Gain Amplifiers (PGAs) with low-pass filters, and a 12-bit ADC.

These components process the sensor's input by amplifying, filtering, and converting it into a digital format, ready for proprietary digital signal processing algorithms.

Two embedded Low Dropout Regulators (LDOs) provide essential power, while an internal temperature sensor, in coordination with the ADC, monitors operating temperature.

The GW6210 features 32KB of embedded Flash memory for program and data storage, and 2KB of SRAM for critical processing data.

Multiple communication interfaces, such as UART and SPI/I2C options, ensure seamless host device connectivity.

Features

- PM0.3, PM0.5, PM1.0, PM2.5, PM4, PM7 and PM10 support
- System clock frequency: 16MHz
- Analog Front End featuring a 12-bit 50kSPS ADC
- Embedded temperature sensor
- Integrated 8-bit MCU
- Integrated DSP
- Internal Oscillators: 16MHz, 32KHz for sleep mode
- 32KB Flash memory for application programs
- 2KB SRAM
- 2 UART, 2 I2C, SPI and 4 PWM interfaces
- Support for LIN interface through UART functionality
- Support for laser diodes and infrared sensors

- Low power operation modes: Run, Idle, Sleep and Deep-Sleep

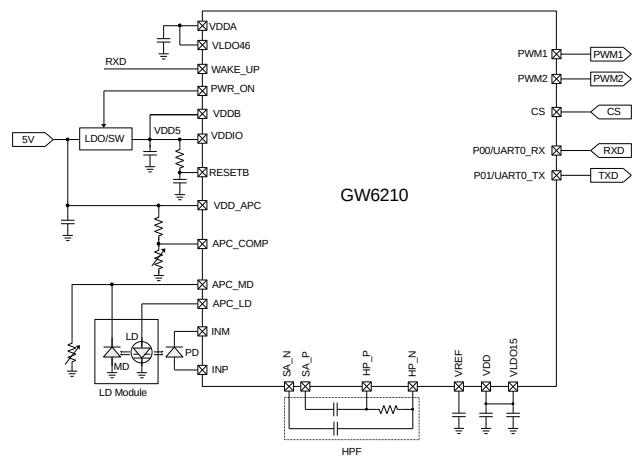

Physical Characteristics

- Operating voltages
 - External supply voltage: 5V
 - I/O supply voltage: 5V
 - Analog core voltage: 4.6V
 - Digital core voltage: 1.5V
- Operating temperature: -40°C to 85°C
- Available in 6x6 0.4mm pitch 48-QFN package and 5x5 0.35mm pitch 48-QFN package

Typical Applications

- PM detection
- Dust sensor
- HVAC and climate control

Basic Application Diagram

Ordering Information

Device name	Package	Remark
GW6210_Q48C6	48QFN, 6x6, 0.4 mm pitch	QFN48, Commercial
GW6210_Q48I6	48QFN, 6x6, 0.4 mm pitch	QFN48, Industrial
GW6210_Q48C5*	48QFN, 5x5, 0.35 mm pitch	QFN48, Commercial
GW6210_Q48I5*	48QFN, 5x5, 0.35 mm pitch	QFN48, Industrial

* 5x5 0.35mm pitch package information will be available soon.

Block Diagram

Package Information (6x6, 0.4mm pitch)

	SYMBOL	MIN	NOM	MAX
TOTAL THICKNESS	A	0.70	0.75	0.80
STAND OFF	A1	0	0.02	0.05
MOLD THICKNESS	A2	---	0.55	---
L/F THICKNESS	A3		0.203 REF	
LEAD WIDTH	b	0.15	0.20	0.25
BODY SIZE	X D	5.90	6.00	6.10
	Y E	5.90	6.00	6.10
LEAD PITCH	e		0.40 BSC	
EXPOSED PAD SIZE	X D2	4.52	4.62	4.72
	Y E2	4.52	4.62	4.72
LEAD LENGTH	L	0.35	0.40	0.45
LEAD TIP TO EXPOSED PAD EDGE	K		0.29 REF	
	K1		0.29 REF	
LEAD TIP ROUND SIZE	R	b MIN/2	---	---
PACKAGE EDGE TOLERANCE	aaa		0.10	
MOLD FLATNESS	ccc		0.10	
COPLANARITY	eee		0.08	
LEAD OFFSET	lbb		0.07	
EXPOSED PAD OFFSET	fff		0.10	

*5x5 0.35mm pitch package information will be available soon.

Notice

1. The descriptions of circuits, software, and other related information in this document are solely meant to demonstrate how semiconductor products operate and provide examples of their applications. You hold complete responsibility for incorporating or using the circuits, software, and information in designing your own product or system.
2. Gwanak Analog takes no responsibility for any losses or damages suffered by you or third parties resulting from the utilization of these circuits, software, or information.
3. Gwanak Analog explicitly disclaims any responsibility or liability for infringement or any other claims related to patents, copyrights, or other intellectual property rights of third parties, resulting from the use of Gwanak Analog products or technical information described in this document. This includes, but is not limited to, product data, drawings, charts, programs, algorithms, and application examples.
4. This document does not grant any form of license, whether explicit, implicit, or otherwise, under any patents, copyrights, or other intellectual property rights owned by Gwanak Analog or any other party.
5. It is your responsibility to identify and obtain any necessary licenses from third parties for the legal import, export, manufacturing, sales, use, distribution, or any other actions involving products that incorporate Gwanak Analog products, if such licenses are required.
6. You are prohibited from making any changes, modifications, copies, or reverse engineering of Gwanak Analog products, whether partially or entirely. Gwanak Analog takes no responsibility for any losses or damages suffered by you or third parties resulting from such actions of alteration, modification, copying, or reverse engineering.
7. No semiconductor product can guarantee absolute security. Despite any security measures or features incorporated into Gwanak Analog hardware or software products, Gwanak Analog holds no liability for any vulnerabilities or security breaches, including unauthorized access or usage of Gwanak Analog products or systems utilizing them. Gwanak Analog does not provide assurance or guarantee that Gwanak Analog products or systems created with them will be immune to issues like corruption, attacks, viruses, interference, hacking, data loss or theft, or other security intrusions. Gwanak Analog disclaims all responsibility and liability associated with vulnerability issues. Additionally, to the extent permitted by applicable law, Gwanak Analog disclaims all warranties, whether expressed or implied, regarding this document and any related software or hardware, including but not limited to warranties of merchantability or fitness for a particular purpose.
8. While Gwanak Analog strives to enhance the quality and reliability of its products, semiconductor products possess inherent characteristics, such as a certain failure rate and potential malfunctions under specific usage conditions. Unless explicitly specified as high-reliability products or intended for harsh environments in Gwanak Analog data sheets or other official documents, Gwanak Analog products do not incorporate radiation-resistant design. It is your responsibility to implement safety precautions to mitigate the risk of bodily harm, injuries, damage, or public hazards resulting from failures or malfunctions of Gwanak Analog products. These safety measures may include hardware and software safety design, such as redundancy, fire control, malfunction prevention, appropriate measures to address aging degradation, or other suitable actions. Since evaluating microcomputer software independently is challenging and impractical, you are accountable for assessing the safety of the final products or systems manufactured by you.
9. For specific information regarding environmental concerns related to Gwanak Analog products, kindly get in touch with a Gwanak Analog sales office. It is your responsibility to conduct a thorough investigation and ensure compliance with relevant laws and regulations pertaining to the usage or inclusion of controlled substances, including but not limited to the EU RoHS Directive. Gwanak Analog takes no responsibility for any damages or losses incurred due to your failure to comply with applicable laws and regulations.
10. Gwanak Analog products and technologies must not be utilized or included in any products or systems that are prohibited by domestic or foreign laws or regulations. You are required to adhere to export control laws and regulations imposed by governments of countries that assert jurisdiction over the parties involved or the transactions taking place.
11. The buyer, distributor, or any party involved in the distribution, sale, or transfer of Gwanak Analog products to a third party is responsible for informing the third party in advance about the contents and conditions specified in this document.
12. The content of this document cannot be reproduced, copied, or duplicated, either fully or partially, without obtaining prior written consent from Gwanak Analog.
13. If you have any inquiries about the information provided in this document or Gwanak Analog products, please reach out to a Gwanak Analog sales office for assistance.
